

Curriculum vitae

PERSONAL INFORMATION

Family name, First name: **Vranka, Marek**

Researcher unique identifier(s): ORCID **0000-0003-3413-9062** / J-1531-2017

Date of birth: **27. 07. 1988**

Nationality: **SR**

URL for web site: <https://fsv.cuni.cz/contacts/people/32329117>

☐ EDUCATION

- 2025 **PhD, Social Psychology**
Faculty of Arts / Department of Psychology, Charles University, CZ, Supervisors:
Prof. Lenka Šulová & Doc. Ilona Gillernová, Mentor: Dr. Petr Boschek
- 2014 **Master, Corporate Economics and Management**
Faculty of Business Administration, Prague University of Economics and Business,
CZ, Minor: **Behavioral Economics**
- 2012 **Master, Psychology**
Faculty of Arts / Department of Psychology, Charles University, CZ

☐ CURRENT POSITION(S)

- 2016 – Researcher and Lecturer
Faculty of Social Sciences / Department of Marketing Communication and PR,
Charles University, CZ
- 2018 – Researcher
Peace Research Center Prague at Faculty of Social Sciences, Charles University, CZ

☐ PREVIOUS POSITIONS

- 2017 – 2024 Researcher, Head of CEVYZ Lab (2020 – 2024)
Faculty of Business Administration / Department of Management, Prague
University of Economics and Business, CZ
- 2018 – 2021 Deputy Head of Department
Faculty of Social Sciences / Department of Marketing Communications and PR,
Charles University, CZ
- 2016 – 2019 Researcher
National Institute of Mental Health, Klecany, CZ
- 2012 – 2013 Lecturer
Faculty of Economics, Prague University of Economics and Business, CZ
- 2012 – 2020 Lecturer
Faculty of Arts / Department of Psychology, Charles University, CZ

☐ FELLOWSHIPS

- 2017 Anglo-Czech Educational Fund scholarship, Department of Psychology, University
of Portsmouth, UK (canceled due to my parental leave)
- 2015 – 2016 Erasmus+ stay at Faculty of Psychology, University of Vienna, AT

☐ SUPERVISION OF GRADUATE STUDENTS AND POSTDOCTORAL FELLOWS

- 2016 – 2025 37 Bachelor Students / 17 Master Students
Faculty of Social Sciences / Department of Marketing Communications and PR,
Charles University, CZ
- 2013 – 2021 15 Bachelor Students / 8 Master Students
Faculty of Arts / Department of Psychology, Charles University, CZ

□ **TEACHING ACTIVITIES**

Lecturer:

- 2016 – Social Psychology, Methodology, Statistics, Moral Psychology, Well-being, Behavioral Economics, Open Science / Faculty of Social Sciences, Charles University, CZ
- 2012 – 2013 Behavioral Economics / Faculty of Economics, Prague University of Economics and Business, CZ
- 2012 – 2020 Statistics, Experimental Psychology, Behavioral Economics / Faculty of Arts / Department of Psychology, Charles University, CZ

Guest Lecturer:

- 2022 – Media in Czech Republic / The Missouri School of Journalism, University of Missouri, USA

Teaching Assistant:

- 2009 – 2012 Statistics / Faculty of Arts / Department of Psychology, Charles University, CZ

□ **ORGANISATION OF SCIENTIFIC MEETINGS**

- 2026 Organizer of „Metascience of Behavior Change“ BRAINSTORM meeting of international experts in Prague, CZ
- 2020 Chair of Methodology in Psychology Working Group at the 32nd International Congress of Psychology in Prague, CZ

□ **INSTITUTIONAL RESPONSIBILITIES**

- 2016 – Faculty member, Faculty of Social Sciences, Charles University, CZ
- 2016 – Member, Ethics Committee of Charles University Environment Center, Charles University, CZ
- 2023 – 2024 Member, Ethics Committee for Research at Faculty of Social Sciences, Charles University, CZ
- 2018 – 2021 Deputy Head of Department, Faculty of Social, Charles University, CZ

□ **REVIEWING ACTIVITIES**

- 2022 – Reviewer, Grant Agency of Charles University, CZ
- 2019 – Reviewer, Technology Agency of the Czech Republic, CZ
- 2013 – Journal Reviewer for e.g., *Royal Society Open Science*, *Journal of Behavioral Decision Making*, *Applied Economics*, *Journal of Behavioral and Experimental Economics*, *Czechoslovak Psychology*, etc.

□ **MEMBERSHIPS OF SCIENTIFIC SOCIETIES**

- 2026 – Member, International Society for Moral Psychology
- 2025 – Member, Society for Improvement of Psychological Science
- 2017 – Member, Psychological Science Accelerator Network
- 2016 – Member, Society for Judgment and Decision Making

□ **MAJOR COLLABORATIONS**

Member of Harvard Belfer Center — Beyond Nuclear Deterrence Working Group (2022–2024), an initiative of the Harvard–MacArthur Research Network on Rethinking Nuclear Deterrence, Harvard Kennedy School, USA

□ **CAREER BREAKS**

2/2017 – 3/2024 During my PhD study, I took extended parental leave (85 months) to share caregiving responsibilities for our four children with my wife. During this period I maintained selective research engagement, contributing to 15+ publications including papers in *Nature*, *Nature Human Behaviour*, *Psychological Science*, and *PNAS*. However, I was unable to spend longer time on research stays abroad, nor finish my PhD earlier.

Early achievements (max. 2 pages)

□ PART A – EARLY ACHIEVEMENTS TRACK RECORD

Publications

Total publications in peer-reviewed journals = 60

(**first author** = 10, last author = 16)

Research/Clinical articles = 57

Reviews = 3

Book chapters = 1

h-index = 18 (WoS)

Cumulative citation index excluding self-citation (ISI) = 2795 (WoS)

Average impact factor of first/corresponding publications (excluding reviews) = 7.3

□ PART B – EARLY ACHIEVEMENTS TRACK RECORD

1. **Publication in major internal peer-reviewed multi-disciplinary scientific journals, highlighting five representative publications (describe why you consider these publications to be important/representative), and the number of citations (excluding self-citations):**
 - a. **Vranka, M., & Houdek P.** (2024). Moral hypocrisy and the dichotomy of hypothetical versus real choices in prosocial behavior. *Journal of Economic Psychology*, 105, 102772. My most recent first-author paper addresses the gap between what people think they would do when facing a moral dilemma and their actual behavior, showing that in some situations, people are more honest than they think they are. I collected and analyzed data, wrote and edited the manuscript. [cited 3x]
 - b. Smetana, M., **Vranka, M.**, & Rosendorf, O. (2026). Allied commitments and public support for military interventions: A cross-national experiment. *Research & Politics*, 13(2), 20531680261437297. My most recent paper and the 1st publication in our ERC MICROCODE project (PI: Smetana) replicates original findings across a broad range of countries. As I believe in the importance of replications, I am especially glad we were able to conduct and swiftly publish this one. I took care of some parts of data collection, all data analyses, visualisations, results write-up and supplementary materials preparation, making preregistration, data, scripts and materials available at <https://osf.io/j2hfb/overview> [no citations yet]
 - c. Ruggeri, K., Stock, F., Haslam, S. A., Capraro, V., Boggio, P., Ellemers, N., ... **Vranka, M.**, ... & Willer, R. (2024). A synthesis of evidence for policy from behavioural science during COVID-19. *Nature*, 625(7993), 134-147. Although my contribution to this Nature paper was relatively humble, I managed to catch and correct important mischaracterization regarding the area of evidence for which I was responsible. Moreover, the opportunity to participate on this work project was a direct result of my extensive international connections through collaboration on many large-scale projects since 2013. [cited 77x]
 - d. **Vranka, M.**, & Bahník, Š. (2016). Is the emotional dog blind to its choices? An attempt to reconcile the Social intuitionist model and the choice blindness effect. *Experimental Psychology*, 63, 180–188. doi: 10.1027/1618-3169/a000325 This study presents a test of theoretical predictions stemming from a leading model of moral judgment by cleverly utilizing choice blindness phenomenon. As many studies simply show effects, I consider one that attempts to falsify a theory especially valuable. I have designed the task, collected data and wrote and edited the manuscript. [cited 2x]
 - e. Frollová, N., **Vranka, M.**, & Houdek, P. (2021). A qualitative study of perception of a dishonesty experiment. *Journal of Economic Methodology*, 1-17. This is my only qualitative empirical paper so far, but not only thanks to its findings I am more than aware of limitations present in quantitative measurements used in most of social science experiments. This paper serves as a reminder that participants sometimes perceive presented situations in a wildly different and unexpected ways. I assisted with data collection, analysis and wrote and edited the manuscript. [cited 11x]
2. **Granted patent(s) (not applicable)**
3. **Invited presentations to peer-reviewed, internationally established conferences and/or international advanced schools (not applicable)**

4. Prizes and Awards:

- a. Society for Personality and Social Psychology, Cialdini Prize for outstanding contributions to field research in social psychology for the paper: Vlasceanu, M., Doell, K.C., Bak-Coleman, J. ... Vranka, M. ... & Van Bavel, J.J. (2024). Addressing Climate Change with Behavioral Science: A Global Intervention Tournament in 63 Countries. *Science Advances*, 10, eadj5778. <https://doi.org/10.1126/sciadv.adj5778>
- b. Dean's Award for Best Publication,(1st place 2021, 2022), Faculty of Business Administration, Prague University of Economics and Business;
- c. Rector's Award (2nd place 2021, 3rd place 2017) Prague University of Economics and Business;
- d. ESOP Prize for Excellent Student Research Work (2013),), Faculty of Business Administration, Prague University of Economics and Business.

□ PART C – EARLY ACHIEVEMENTS TRACK RECORD

2013 – Prague Laboratory for Experimental Social Sciences (PLESS)

In 2013 I established the laboratory at the Department of Psychology at Faculty of Arts, because there were no facilities nor resources for conducting simple empirical studies at that time. To be able to collect data for my experiments, I secured computer-laboratory at the Faculty, built separators to divide working spaces, hosted participant pool management platform and launched communication campaign to get future participants to sign in. Because of these efforts, PLESS maintained a participant pool of 5,000+ and provided previously missing online and in-person experimental infrastructure. Thanks to it, I was able to join international collaborative networks and participate in many large-scale research projects (such as Many Labs 1&2, Registered Replication Reports, etc.). This in turn led not only to many co-authored publications in high-impact journals, but even more importantly, allowed me to experience collaboration with colleagues from universities all around the world and see firsthand how studies are prepared and conducted in practice.

Later on, PLESS served as a platform for mentoring and training Bachelor and Master students, many of whom later continued to earn their PhDs, in Czech Republic as well as abroad and now work, for example, at Czech Academy of Science or University of Amsterdam. Lastly, PLESS played a role in popularizing recent development regarding Open Science, preregistrations and related topics through lectures and blog posts. Although during and after covid, data collection for my studies was mostly moved to international online platforms, I plan to carry on the legacy of PLESS in new facilities at the Faculty of Social Sciences in the future.

RESEARCH GRANTS (selected)

2025 – present	<i>Microfoundations of Collective Defence (MICROCODE)</i> (team member) European Research Council Starting Grant
2025 – present	<i>Zahraniční vměšování cizích mocností v kontextu současných geopolitických a technologických změn“ (INTERFER)</i> (team member) Operační program Ján Ámos Komenský
2022 – 2025	<i>Experimental laboratory for international security study</i> (team member) Charles University, PRIMUS
2022 – 2024	<i>Behavioral organizational politics: Experiments in prosocial political behavior</i> (team member), Czech Science Foundation, standard project
2022 – 2023	<i>Cheating and victims‘ characteristics</i> (PI), Internal Grant Agency of PUEB
2021 – 2023	<i>Norm-nudging – Theoretical framework and implementation guidelines</i> (PI) Internal Grant Agency of PUEB
2021 – 2024	<i>Dishonest behavior in organizations</i> (team member), Internal competition for the support of excellent teams of the FBA
2019 – 2022	<i>Experimental study of predictors of corrupt behavior</i> (team member), Czech Science Foundation, standard project
2018 – 2021	<i>Testing External Validity of Experiments on Dishonest Behavior</i> (team member), Czech Science Foundation, standard project
2016 – 2018	<i>Modernization and Internationalization of the Teaching of Statistical Analysis</i> (PI), Charles University, Institutional (development) program
2016	<i>Moral evaluation of euthanasia and assisted suicide</i> (team member) Faculty of Arts, Charles University, internal grant
2015	<i>Moral judgment and choice blindness</i> (team member), Faculty of Arts, Charles University, internal grant
